In the cloud or installed locally. It's your call.

Cabinet SAFE document management software is available both as installed software and in the cloud.

Our traditional document management suite, installed locally and accessed via a desktop application. **Sold as a one-time software purchase.**

Best for: Businesses with a dedicated IT staff and a local server.

Our cloud-based offering. All the security and efficiency of SAFE, but managed, upgraded and backed up on remote servers. **Sold as a monthly subscription.**

Best for: Businesses with little or no IT capabilities, or who need the cash flow advantages of a monthly subscription model.

Who is Cabinet?

Since its 1999 founding as Cabinet NG, Cabinet Document Management Solutions has prided itself on producing world-class document management, workflow and content sharing solutions that are efficient, secure and affordable enough for use in any office.

Based in the technology hub of Huntsville, Ala., Cabinet has helped hundreds of businesses enjoy the benefits of a paperless office.

**Efficient.
Secure.
Affordable.**
**Your office.
Paperless.**

Want to increase efficiency, tighten security, save space and go green? Then you need Cabinet SAFE paperless office software.

Built on SQL Server and .NET technologies, SAFE is a complete electronic document management, workflow and scheduling solution, allowing organizations to enjoy all the benefits of a paperless office without fundamental changes to existing processes and culture. Best of all, SAFE is surprisingly affordable!

Any document. Anywhere. Any time.

Business in the 21st Century is a 24/7/365 proposition. For an organization to be efficient, nimble and agile, managers and employees must be able to work with mission-critical documents anywhere; at home or on the road, at their desk or on vacation.

That's why Cabinet SAFE is much more than a "virtual filing cabinet." SAFE lets you access – and use – any document, anywhere, any time. Call up a file in a client meeting. Approve an invoice from your beach chair. Review a proposal in the airport lounge. **With Cabinet, you're always connected.**

Desktop App

Enjoy unfettered access to all document management, workflow, scheduling and sharing capabilities.

Browser

The Cabinet WEB module lets you access documents from any standard web browser – even on a tablet!

iPad

The Cabinet MOBILE app offers a streamlined user experience and intuitive touch controls for iPad users.

Cabinet SAFE: Document management, workflow, scheduling and file sharing for small and medium-sized businesses.

- **Eliminate lost documents and filing mistakes**
- **Automate business processes**
- **Improve efficiency and accountability**
- **Tighten security**
- **Integrate directly with third-party applications**
- **Enjoy access to a dedicated customer service staff**
